Dear Parents,

The end of the school year! How did it creep up so quickly? Hopefully you got a chance to view the student art show. It was an outstanding collection of work done by YOUR children! Please take some time to look through the art that was sent home with your child and discuss what they did, what they learned and what they would like to do with it. I realize it cannot all be kept but here are some suggestions;

- Make a spot in your home for an "art gallery" of your child/children's work. This can be done with inexpensive frames or even your refrigerator. The work can be swapped out whenever you want.
- Put the work into a scrapbook for your child or better yet have them help!
- Scan the work for cards or notes to be mailed or used for other purposes.
- Give some of it away. I can tell you as an aunt and grandma I thoroughly enjoy getting something that a child made by themselves!

During the last weeks of school students usually hit their peak for the year and make some of their best work so be sure to check that out too since you may not have seen it yet. We also did many projects this last month with recycled items or as some people say "junk"! Hopefully students figured out some ways to "repurpose and reuse" things at home.

Lastly and most important—PLEASE, PLEASE, PLEASE encourage your children to be creative! Don't let them say "I'm bored!" Turn off the TV, computer or devices and do something like writing letters, poems or stories. Dance, read, sing, journal, cook, paint, build, garden, draw, sew, take pictures or just take a look at the world around you. It is a beautiful place and if all you do is look at what others put out there on the computer, you tube, phone, etc, you are missing what is right in front of you right now!

God Bless you all and Happy Summer!

Mrs. Bowe

Attached is a very old list that my own children made—my grandkids still use it and it still sparks ideas. Have fun and add to it!
